

# BRUCE 'BILL' ITIN

ISSUE 18: Monday 2<sup>nd</sup> – Sunday 8<sup>th</sup> of November

Its that time of year, the time when people slowly start to disappear from the public eye, when books mysteriously begin to actually be read and we are all caught up with the many memes we've missed as they flood stalkerspace. No, I'm not talking about election week, I'm talking about Exam Time! So sit back, buckle up, and let the Billitin guide through these rocky shores....

# How to study: A Beginner's guide

With exam period coming up, everyone is knuckling down and getting some study done. But how to do it in the best way possible I hear you ask? Well have no fear, the new CRC has got the tips to help you through this assuredly tough time! I went around and asked several members for their top tidbits of advice, and here they are....

**Kat 'Kat'tain' Throssel-** "The Most important thing to learn when studying is the art of delegation. I ensure that I always have a trusty crew, ahem I mean friends, to 'help' me out when I am studying."

**Anthony "BallBoy" Ricci-** "What I like in life are balls. And study sadly doesn't have very many balls. So quite simply I introduce them into my study time, cradling them while I am cramming knowledge into my brain."

**Sagar 'Solid 7/10' Joshi-** "When I study I like to prioritise. I assign ratings to all my work, from a poor 7/10 all the way up to a solid 7/10."

**Angus '28 minutes' Vos-** "I always aim to finish my study early, generally around the 8:30 mark as then it gives me the rest of the night to recover. Furthermore I try to avoid Top east, as it is not so conducive to study."

**Shivani 'Shivivor' Banerjee-** "Study is best dealt with by outlasting it. If you simply do the work for long enough it keels over, and you will be the last woman standing. Simples."

**Jo 'Three Pointer' Guthridge-** "When I'm studying I always aim to do multiple tasks at once, its too hard to simply stick to one. Using this technique I find it easy to dominate the work, just like I dominate the basketball courts."

**Jimmy 'Hitman' Li-** "I deal with study through precision. I set myself a target, go for it, and take it out, before moving on to my next task."

**Mina 'CanIhaveaSip' Kim-** "Asking your peers for their aid is the best way to get study done effectively. As a young un, I find study difficult, so I like to deal with in small...sips, and this helps me get it done eventually."

**Steph 'Long Distance' Robertson-** "I like to leave Bruce for my study times, going to a library or somewhere quiet and lonely. I guess being in a homely environment helps me to focus."

**Anakin 'Notyourfather' Yang-** "Study poses many questions, some of which prove difficult during exam time. I like to softly croon to my notes, teasing out the answers through the dulcet tones of my voice."

**Matt 'Melbowes' Bowes-** "Cafes. That is all."
