Two freedoms - freedom of expression and freedom from racial vilification

Amid significant public debate about the Racial Discrimination Act, this address explores the history of federal racial vilification laws and the rationale for legal protections against racial harassment. WORKSHOP

Be visible or vanish: working the media for career advantage

With so many people applying for the academic jobs you want, how do you distinguish yourself from the pack? If people already know your work, before you even walk through the door for the interview, your chances of getting one of those jobs are vastly improved. A strong public profile, in mainstream media and social media, is the key. The time to start building your profile is while you are doing your PhD or postdoc – and ANU is here to help. Join us for an interesting and informative morning, where you will learn how journalists work, what you can do to make your research interesting for them and how to build a credible public profile in the mainstream media, as well as in social media. Don't wait till the end of your degree or research project before you think about getting your work out there! Morning tea will be provided!

Speaker/Host: Jane O'Dwyer, Director of Strategic Communications & Dr Inger Mewburn, Director of Research Training

Venue: The Finkel Theatre, The John Curtin School of Medical Research, Garran Road, ANU

Date: Tuesday, 4 March 2014
