

The Bruce Billetin

Doing it for Bill since 2014

ISSUE #99: Monday 12th June – Monday 24th July

It's the 99th issue of the Billetin! Since it was started in 2014 by the Secretary of the CRC, the Billetin has grown from a sporadically published newsletter to a publication even other colleges seem to read occasionally. This is the last Billetin for the semester, but get keen for the 100th issue because it's going to be legen... wait for it...

There are **4** sheep
in this Billetin

AIR & SPACE SPEAKER SERIES: THE SCIENCE OF (VERY) HIGH SPEED FLIGHT
Questacon - The National Science and Technology Centre, 2.3km from CBD
13 Jun 2017

DINOSAURS IN THE GARDENS
Australian National Botanic Gardens, 1.6km from CBD
1-16 Jul 2017

Associate Professor Andrew Neely from UNSW Canberra (it shouldn't be called UNSW if it's in the ACT, just saying) will be speaking at Questacon about the science behind high speed flight. If you attend this event, you get a complimentary pass to Questacon!

It's like the normal Botanic Gardens except there are dinosaurs in it.

WARM TREES AT THE NATIONAL ARBORETUM
Village Centre, National Arboretum Canberra, 5.3km from CBD
1-30 Jul 2017

EMERGING CONTEMPORARIES
CraftACT, 0.3km from CBD
26 May - 8 Jul 2017

Emerging Contemporaries is a Craft ACT National Award Exhibition for early career artists. It plays a pivotal role in supporting and transitioning artists into professional practice. There will surely be some artworks there that will be well known one day so come feast your eyes on (potentially) the biggest thing since the Mona Lisa.

The Arboretum used to be a pine plantation, but after the bushfires of 2003 it was replanted with the theme of '100 Forests 100 Gardens'. They've now collaborated with hundreds of volunteers who have knitted cherry blossoms, flowers, and scarves to decorate the trees during winter. It also has great views of Canberra so it's a perfect tourist activity if you feel like you haven't been off campus in months.

When the toasted sandwich machine returned to Bruce only days ago, residents far and wide rejoiced to have the empty hole in their hearts filled once again. However, since then, the machine has been used for far more nefarious purposes than dodging a disappointing meal. Read on if you dare.

"Yeah it might have been a bit too far" stated *Ellena in an exclusive interview with the Billetin, "but he had it coming. I've never seen someone walk around looking so cheerful and relaxed during a time like this. How dare he?"

Ellena was, of course, describing a member of an increasingly large population of Bruce residents who have finished their exams, and have the cheek to publically display their happiness about it. Rumours about the extent of this filthy conduct have included reports that ressies have been smiling in the presence of others, laughing at jokes, and exhibiting other common signs that they're enjoying themselves. *Adam, another Bruce resident, told the Billetin that he thinks it's an appalling thing to do.

"It's an appalling thing to do" said Adam. "When I'm wallowing in misery I want everyone to wallow in misery with me. It doesn't matter that they've also gone through the pain of exams and now deserve a break for all their hard work. How can enjoying a well-earned holiday benefit their general wellbeing if I don't care about their general wellbeing?"

Unlike Adam, the SRs do care about everyone's general wellbeing, and are doing their best to prevent conflict between those with their freedom and those who are still being oppressed by the consequences of their poor study habits throughout the semester. "We've stopped at least four attempted murders in the Dining Hall throughout the past week" the minutes from the SR meeting announce. "Unfortunately, Ellena did manage to hold *Dillon's head in the toastie machine for a solid 30 seconds before we pried him out of it. He is currently suffering from third degree burns but still looks better than our prospects of being satisfied by our exam results."
