MARCH 27**

**ENDPOINT:
MARCH 28**

The new Bruce scarves are on sale now! Get yours for \$20 from the front office!

SPORT

Sports

Inward Bound

What, have you not seen the front page?! It's IB weekend people! Make sure to get down to what is unequivocally the biggest sporting event of the year. Don those Bruce colours (especially the super-awesome new Bruce scarves) and cheer through our awesome runners!

Carpooling signups are available in the foyer. Additional info will be posted throughout the week. Please direct any enquiries to Harry Main (EA03).

Hockey

The hockey season is officially at an end! Thanks for everyone who participated and came down to support at the games. Also a big thank you to our coaches Anna Christoff and Dale Drummond for their help - we had lots of first timers this year who have improved massively because of them. Girls finished on 6th and boys finished on 7th.

TRIVIA

1. How many books are in the New Testament?
2. How many countries border Lithuania?
3. Which current AFL player has the most matches played?
4. Which American Indian tribe ruled over Arizona and New Mexico prior to European settlement?
5. Which aircraft holds the air-speed record?
6. Which artist has the greatest number of Top 40 US hits?

8. In what year was *The Hobbit* first published?
9. Who won the 2015 Razzie for worst director?
10. Who is the longest serving US president?
11. *Unwell* is a single by which band?
12. What country has the highest alcohol consumption per capita?

1. 27, 2. 3, 3. Dustin Fletcher , 4. Navajo, 5. SR-71 Blackbird, 6. Elvis Presley, 7. A creep, 8. 1937, 9. Michael Bay, 10. Franklin D. Roosevelt, 11. Matchbox Twenty, 12. France (12.6L of ethanol a year)

Debating final: Leaving from foyer 7.20pm

PUBLIC LECTURE

Internet Voting and Cybersecurity: What could go wrong?

Monday 23 March @ 6.00pm
Manning Clarke Theatre 3

Internet voting has the potential to ease voter participation, reduce fraud, and provide a high-tech upgrade to traditional polling methods.

Unfortunately, it also raises some of the most difficult challenges in computer security, due to the need to safeguard election servers and voters' computers against a variety of powerful attackers while simultaneously protecting the secret ballot. How well can election technology defend against modern cyber threats?

J. Alex Halderman, an expert on software and Internet security, will look at this issue. In the light of the imminent NSW elections, it is more relevant than ever.
